Summary

Hard working university student in my 3rd year of pursuing a BA in Computer Science. Fluent in English and Japanese. Comfortable working on projects using logical thinking to address both the larger and smaller components of the project. Proactive and strategic problem solving are my strong suits. Seeking an internship as a software engineer starting from May 2023.

Education

University of California Berkeley   **Berkeley, CA**
An academic year of study abroad   *August 2022–present*
relevant coursework: Data Structure, Algorism, Object Oriented Programming, Web Development

Meiji University   **Tokyo, JP**
Bachelor of Science, interdisciplinary mathematical sciences   *April 2020-present*
relevant coursework: Algorithms, Cognitive Science, User Interface, Linear Algebra, Probability, Statistics, calculus

Skills and Languages

Skills: Java, Python, HTML5, CSS, JavaScript (React, Node, Next), PHP, SQL, Figma
Languages: English (Fluent), Japanese (Native)

Highlighted projects & Experience

Investech   **Tokyo, JP**
Software Engineer Intern   *January 2022*
- Designed an app for the visualization of solar power data with Figma
- Implemented a web app using React, MySQL, ChakraUI
- Served in a fast-paced environment

Reazon   **Tokyo, JP**
Software Engineer Intern   *June 2023-present*
- Implement a food delivery app called "Menu" using react native
- Work in a diverse environment
- Work with a team using git, github, figma, jira, slack

CS 61B (Data Structure)   **Berkeley, CA**
Class Project   *May 2022-December 2022*
- Implemented an engine for generating explorable worlds
- Optimized run time by carefully choosing the data structure
- Worked with my teammates using github
- Implemented a maze generation algorithm by ourselves

Full Stack Development   **Berkeley, CA**
Class Project   *May 2022-December 2022*
- Implemented a web app for UC Berkeley student to connect with other classmates
- Turn the feedback from the mentor into action
- Worked as a full-stack developer with 5 other classmates using git.
